

Fiamo® Math Professor

Educational Pocket Calculator

Battery powered pocket calculator and educational tool with a two line display and hard case.

Learn & Play with the Math Professor

Fiamo Math Professor is primarily intended for those who would like to improve and train their basic mathematics skills, memory and logic. The calculator works in two different modes, as a normal calculator and as a maths-based games device.

Calculator

Basic arithmetic functions
+/-, %, $\sqrt{\quad}$

List of Games

Maths Basics

training basic maths operations (+, -, \times , \div)

Maths Operators

fill in the correct operator

Logica Progression

continue the logical progression by filling in the next numbers in a series

Memory Training

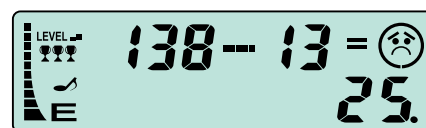

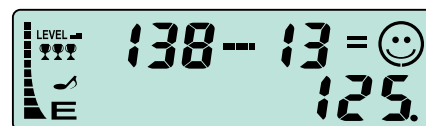

remember the numbers and re-enter

Hunter

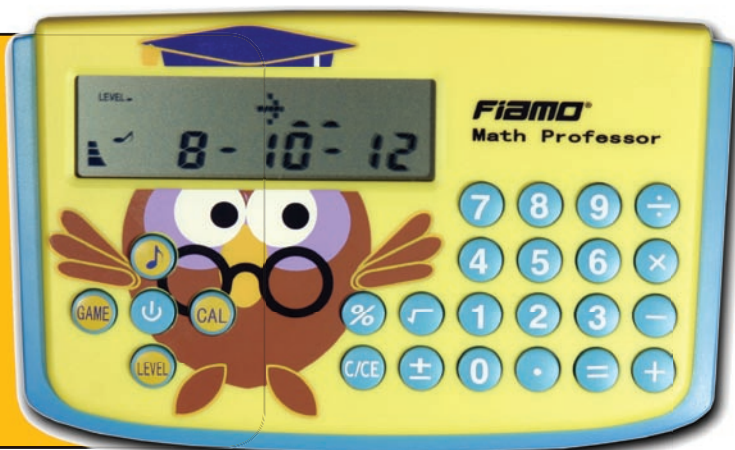

pressing the correct button captures the „hunted“ number on display

Number Guessing

guess the numbers whilst being given hints by the calculator about the right combination
